Swiss design and precision

SwissDeck is a modern, dynamic company that handles the development, production and selling of synthetic floor tiles. SwissDeck offers you an ergonomic and modern floor finish for all kinds of floors. SwissDeck floor tiles are the most cost-effective solution in comparison to epoxy floors or other coatings. The development and production of the tiles started over 20 years ago In Switzerland. SwissDeck has its own moulds for the production of all types of tiles.

Perfection and a well-balanced production

Because of the very high accuracy and precision we set in Switzerland, we may speak of Swiss quality. We believe the label "Swiss made" offers you a reliability and quality.

We are therefore very proud of our own superior designs and excellent quality. Our products are not to be compared with alternative products offered on the market.

All SwissDeck floor tiles are Swiss made 

balconies

SwissDeck floors are extremely suited to cover your terrace, balcony or patio. The RibDeck tiles can be laid on any flat base, they are UV-resistant and immune to differences in temperature. The top side is provided with an antiskid surface making it a safe floor in wet circumstances. The tiles are easy to clean by rinsing them with water. The RibDeck tiles have an open profile which allows to quickly drain rainwater. Finishing edges and corners are available for the edges and corners

A complete transformation for your balcony

SwissDeck offers an excellent way to get your balcony transformed in just a few hours. A dull, grey concrete floor turns into an elegant and attractive balcony floor you will enjoy for years. The tiles are removable, so you can simply take them with you when you move.

corridors

Providing a corridor with a good antiskid surface might seem like an impossible task. In the past they often used the outdated epoxy floors. The top layer of the SwissDeck tile is non-slip what will mean that these tiles are very safe in wet circumstances. It is still possible to walk down the corridor while the tiles are getting installed.

Fire classifications

Especially for galleries or corridors where a high fire classification is needed, SwissDeck has made a material to get a very high fire rate with a weight of approx. 5 kg / m².

All SwissDeck tiles are non-slip, high resist of impact, UV resist and 100% recyclable. The RibDeck and FireDeck tiles have become very well known because of their high non-skid en safety quality.

garage

The SwissDeck floor tiles are an ideal solution for garage floors and available in several materials and designs. The tiles can be easily laid on every flat base and it is possible to get the tiles shaped in a mat you can use for under the car or motorcycle.

Wear-resistant and easy to clean

The SwissDeck tiles show a perfect degree of rolling resistance and can cope with loads of up to 25 tonnes. The antiskid surface of the tiles is resistant to petrol, oils, acids and chemicals. The tiles are light-weight, compact, removable and very easy to clean. We guarantee you will enjoy the floor for years.

outdoors

SwissDeck floors are extremely suited to cover damaged and polluted floors and terraces. A lot of people have already chosen for SwissDeck tiles, not only for the easy installation, but also for the high quality of the tiles. The tiles are available in 5 different designs and 14 basic colours, so there is a solution to every floor

Money-back guarantee

It is possible to exchange the tiles in case you're not completely happy with the result. It is also possible to get your money back. Try SwissDeck floors today, we promise you will not regret it.

commercial floors

SwissDeck floors are the ultimate floors for show-rooms, product displays and shop floors and they are perfect to draw the attention of potential customers. It looks attractive, it is easy to rinse and also a durable solution. The tiles can be delivered in a wide range of colours so that the floor links up perfectly with the customer's product. This makes it easy to adapt your showroom or product display to new products. It is also possible to have your logo placed on the tiles.

Your stand becomes a true eye-catcher

Thanks to the unique and high tech appearance, your stand, product display or showroom becomes a true eye-catcher. The tiles are light-weight, compact and removable. This makes the SwissDeck tiles an excellent choice for mobile applications. The floors can be delivered in a wide range of colours and it offers you a good and solid foundation for your stand.

all-round

The most popular tile in the SwissDeck assortment might be the RibDeck. The RibDeck antiskid floor tile is a hygienic, safe and visually very attractive looking tile. The tiles are provided with a surface that lets liquids through and can be used both indoors and outdoors.

A block design, modern and beautiful

RibDeck is also popular for its design. It has multiple colours, because the circular ribs have been placed opposite to each other. It gives the tile a beautiful block effect, making its appearance distinctive.

Applications

- Balconies
- Corridors
- Garages
- Patios
- Showrooms
- Events
- Car and motorcycle racing

And many more applications where a very heavy duty flooring is required, such as for example, in aircraft hangars.

strong and reliable

The DiamondDeck is the ultimate solution for your garage or anywhere where an antiskid and a unique floor is required. The DiamondDeck is our most popular tile with a diamond plate design for indoor and outdoor use. These tiles are the ideal solution for your stand on tradeshow, showroom, car show, shop, garage or anywhere where a high tech floor is required.

Applications

- Garages
- Showrooms
- Evenents
- Displays

low profile studded surface

CoinDeck is a non-skid tile with a closed and low profile studded surface. The tiles are used frequently for showrooms and event floors. CoinDeck is a durable and attractive solution to many applications. The CoinDeck tiles have a circular design.

Applications:

- Evenents
- Shops
- Showrooms
- Sport schools and Fitness centres
- Offices

floor **deck**

plane structure

Floor Deck is our flattest tile and is widely applicable to, for example, dance floors. Because of its flat finishing you can easily manuevere on the floor. The tile is also very suitable to office floors, so office chairs run smoothly on it.

Applications

- Offices
- Showrooms
- Evenents
- Sport schools and Fitness centres
- Dance floors

sport **deck**

multifunctional

SportDeck is a perfect solution to temporary or permanent sport floors. The self-draining profile allows you to continue your activities even after a shower of rain without the risk of slipping. The open surface also allows dirt and dust to quickly and easily disappear. The surface of the tile remains safe and clean during exercise. Moreover, it provides an excellent grip for various sports.

Applications

- Basketball
- Tennis / Badminton
- Fitness
- Volleyball
- Inline hockey
- Swimming pool / sauna

led lightning

LEDDeck offers the opportunity to apply ambient, orientation, marker and safety lighting into the SwissDeck Floors. A special housing is developed in conjunction with Eyeleds. The low profile LEDs are perfect for commercial applications such as restaurants, retail establishments, entertainment facilities, sport facilities, theatres, casinos or hotels. Floorleds function wonderfully as guide, accent or night-lights in stairways, lobbies, offices, conference rooms, walkways, elevators or at entrances or exits of buildings.

LEDDeck is designed for heavy use, walking or even driving on the built-in lighting is no problem. The LED units are waterproof IP 67 and therefore suitable for outdoor applications. LEDDeck is applicable in all SwissDeck tiles and is available with 6 different colours of light. The tiles are available in sets of 3, 5 or 8 tiles with power supply.

Technical specifications

- Lifespan LED : up to 100.000 hours
- Max lighting surface heat : 34°C
- Energy consumption : 0,3W per unit
- Material : Stainless Steel (1.4301/V2A/Inox 304)
- Lens : polycarbonate
- UV-bestendig : Ja
- 'Walk-over' pressure : 285 kg

logo tiles

It is possible to have your logo placed on every single tile, or on several tiles. The logo can be sublimated on an aluminium plate, or cut from plexiglas and can be milled in the tile. It is a wonderful option for your floor to become an eye-catcher. Distinguishes your business by creating a logo in your SwissDeck floor.

Coronel Racing and TW Steel

Swiss Deck is proud to work with Coronel Racing. Coronel has chosen to give a professional look to the RibDeck tiles in the workplaces and hospitality tents during race weekends. Also watch manufacturer TW Steel uses SwissDeck floors regularly during events, including logo tiles.

ready-made package

With the ready-made packages you easily and quickly make a very attractive floor for garages and showrooms. SwissDeck tiles are made of an environmentally friendly, recyclable and UV-resistant polypropylene. All tiles are recyclable, what makes them environmentally friendly. Because of the high quality raw materials the tiles are resistant to most chemicals, so the quality of the tiles is guaranteed for years.

The perfect solution to small surfaces

The ready-made packages are widely applicable and easy to change and remove. SwissDeck is easy to install and can be installed quickly because of the easy 'click' system. The result is a so-called modular floor you can always take with you when you move or expand. The packages are available in several sizes, several standard designs and in 14 different colours.

An easy online floor designer + app

It is possible to design your own floor in the floor designer, which you can find on the SwissDeck website. It is an easy tool to get an overview of the chosen tiles and colours.

installation and maintenance

SwissDeck produces high quality floors that are easy to maintain and install. The installation of the tiles is very easy! Because of the 20 connections per tile the tiles “click” together easily without any need for tools. In just a few hours your floor transforms into a small piece of art.

The tiles are easy to maintain by rinsing them with water, perhaps in combination with our own cleaning product.

warranty

SwissDeck tiles come with a 15-year guarantee on all types of tiles for non-commercial purposes. At every SwissDeck sales points are well-educated professionals employed, who will answer all of your questions quickly and accurately. It is even possible for private costumers to have their money returned in 30 days in case they haven't used the tiles.

Swiss design and Swiss production stands for high quality. Our tiles are produced with the latest technologies and by the use of the purest ingredients we can provide the quality you wish for. If you have any questions according to the limited warranty, please get in contact with SwissDeck or with your local SwissDeck dealer.

exdeck expansion tile

The ExDeck tiles have been developed to absorb expansion differences. This can occur if the SwissDeck tiles are used for long corridors, or large areas in places where the tiles are exposed to differences in temperature (especially outside).

The ExDeck tiles are flexible so that they can deal with expansion or contraction. The ExDeck tiles are available in edges and in pieces. The tiles can only be used in combination with RibDeck tiles and can be simply clicked to each other.

finishing edges and corners

To finish your SwissDeck floor there are all kinds of SwissDeck flooring edge and corner pieces available.

rubber layer

To protect your roof, we recommend using a rubber layer. This 3 mm thick, permeable rubber layer is produced from 100% recycled rubber. It can also be used as a sound-damping subfloor for all types of SwissDeck tiles.

tool deck

All SwissDeck floors are modular floors and easy to remove. You can easily remove the floor by using the specially developed ToolDeck, which makes the risk of damaging the connection elements extremely small. For event floors such as pit boxes, hospitality flooring and sports flooring, it is necessary to use the ToolDeck!

tile cutter

The professional tile cutter can be used in order to tailor the tiles. This tile cutter is specially adapted to cut the plastic Swiss Deck tiles.

clean deck

Cleandeck is a new and fast-acting product that is completely biodegradable under Regulation 648/2004 (EC). The powerful features of CleanDeck makes degreasing materials less time consuming than other detergents. Cleandeck is skin-friendly and safe to use in a bucket with a sponge, cleaning cloth or brush. You can also use CleanDeck in high pressure sprayers, scrubbing machines, carpet cleaners and nebulisers. Cleandeck can be used on: plastic flooring, laminate flooring, epoxy flooring, tiles, windows and many more.
